fmari.dev/

Senior Full Stack Engineer with professional experience in React.js, Node.js, and Elixir, currently leading frontend development for Zara's global e-commerce platform. Previously worked extensively with Symfony in personal projects, with strong architectural thinking and clean code practices. Passionate maker and 3D printing enthusiast, with a hands-on approach to problem-solving and product development. Skilled in building scalable, user-focused applications across the stack. Key skills include, but are not limited to:

| | | | | | | |
|------------|---|---------|---|------------|---|----------|
| Typescript | - | Elixir | - | React.js | - | Node.js |
| AI Tooling | - | Symfony | - | Clean code | - | Teamwork |
